

## 4 TOPIC TASTER

### re-wiring strategies to make 'it' happen

---

The message that organisational change starts with 'you' is one that you have probably heard before. This session focuses on what motivates you to make 'it' happen so that you can support others to make essential changes too.

#### OUTCOMES

- ▶ You will understand the key differences that make a difference for you to make something happen
- ▶ You will recognise strategies that you employ to get things done, and those that you use for avoidance. Being able to distinguish these and rewire them in you will help you to recognise these patterns in others
- ▶ You will be able to apply this rewiring technique to other unresourceful strategies that you may have that are holding you back.

#### WHO THIS TASTER SESSION IS FOR

Leaders and managers who recognise the need to make something happen.

---

90 minutes

16 - 24

*The Topic Taster sessions provide an ideal environment for learning new tools. They also demonstrate the interactivity of our events.*

*Each session follows our philosophy that small changes in behaviour have a massive impact on results.*

*The Topic Taster sessions give you an ideal experience of working with gluetogether.*
